- 30 cm (12", BEYMA) bass speaker
- 25 mm (1", 44 mm voice coil, BEYMA) horn tweeter, can be turned by 90°
- Neutral sound tuning
- Multi-purpose positioning and installation options
- "Catch & Carry" carrying handles
- M8 threaded inserts for suspended installation
- 2 x NEUTRIK SPEAKON terminal, in/out
- Stand sleeve, robust front grille

DJ magazine 08/2013

"A good passive speaker system at a very attractive price. Remarkably, the speaker system already provides an excellent sound at low volume levels which hardly changes at high volume levels."

tastenwelt 04/2013

"This speaker system offers an effective sound tuning, from low to high volume levels. It provides a very powerful reproduction of the human voice which can be well separated from the music signals. Thus, the MOVE-12 is also very suitable as a floor monitor. It features four ergonomically-friendly and perfectly

positioned carrying handles. In the category workmanship and configuration, the MOVE-12 leaves an overall very professional impression."

Technical Data
